Essex County Schools of Technology, NJ

This is a Working Presentation

For each discussion on the stakeholders make sure your local stakeholders are included. Also provide 1-3 things that need to be addressed as it pertains to their respective areas. We will revisit at the end of the presentation.

+ What is infrastructure?

With a partner, work on a common definition. Provide an example of how infrastructure is used in your system

+ What is infrastructure?

Providing infrastructure is providing systems for all components of an organization.

+ What is the calendar being used for?

Is this for Overcrowding?

Is this for Learning Loss?

Is this for Supplemental Instructional Time?

Is this for Increased Days?

+ Overcrowding

Stakeholders and Team Members:
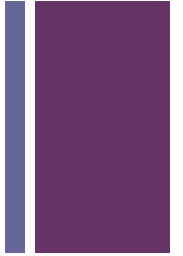

Schedulers

Business Department

Transportation

Teachers

Vendors

Who else? Why are they needed? What role do the play?

+ Learning Loss and Supplemental Instructional Time

Stakeholders and Team Members:

Schedulers

Teachers

Curriculum writers

Who else? Why are they needed? What role do the play?

Teacher Shortage
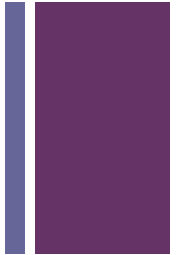

Stakeholders and Team Members:

    HR Department

    Teacher Union

      Climate Committee

Who else? Why are they needed? What role do the play?

+ Types of Infrastructure

Public Infrastructure

Examples

Political Infrastructure

Transportation Infrastructure

Educational Infrastructure
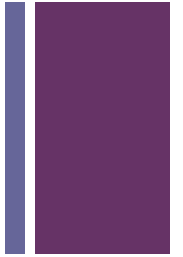

Health Infrastructure

Power and Energy Infrastructure

Telecommunication Infrastructure

Water Infrastructure

Recreational Infrastructure

WallStreetMojo

Examples of Parental Infrastructure

Student Handbook

Calendars

Athletic calendar

Transportation Guidance

Directory of who to contact?

Policies & Procedures

Workshops

Focus Groups

Implementation Plan

Activity

With a partner, assume you are one of the following stakeholders, and create an infrastructure for your respective area. Make sure to include as many supports that you can.
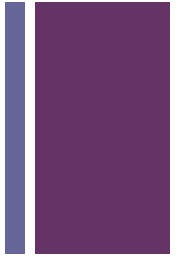

Student

Teacher

Parent

Community Member

Booster Club

Athletic Department

Local Employer

Vendor
