# Why Balanced Calendar?

---

Plan of Improvement

Low test scores

More options for students

Grant Funded

# Intersession

## What do we do?

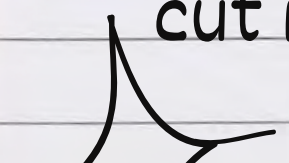

We offer K-8 instruction 4 days per intersession with a field trip on the 4th day.

9-12 can do credit retrieval remotely.

## How do we fund it?

We had the Balanced Calendar grant, but with that funding pulled back, we used Title 1 funding for the October intersession.

Each intersession costs about \$20,000, but with a few cuts and braided funding, we were able to cut it back to about \$14,000.

## How do we staff it?

Staff are paid per diem to work intersession. They sign up by indicating they are interested in working through a survey.

## Student Growth

Students that attended all 3 intersessions had more growth than students that didn't.

## Extended Learning

We can provide 3 intersessions and 4 weeks of summer school. That is 7 additional weeks of learning.

## Supporting Families

Additional 7 weeks of education, childcare, and meals.

Pros

Cons

## Additional Cost

Each intersession can cost up to \$20,000 for staff, transportation, supplies, and admin costs.

## More Transitions

Some students don't do well with each transition due to breaks and we have 4 of them.

## Limited Staff

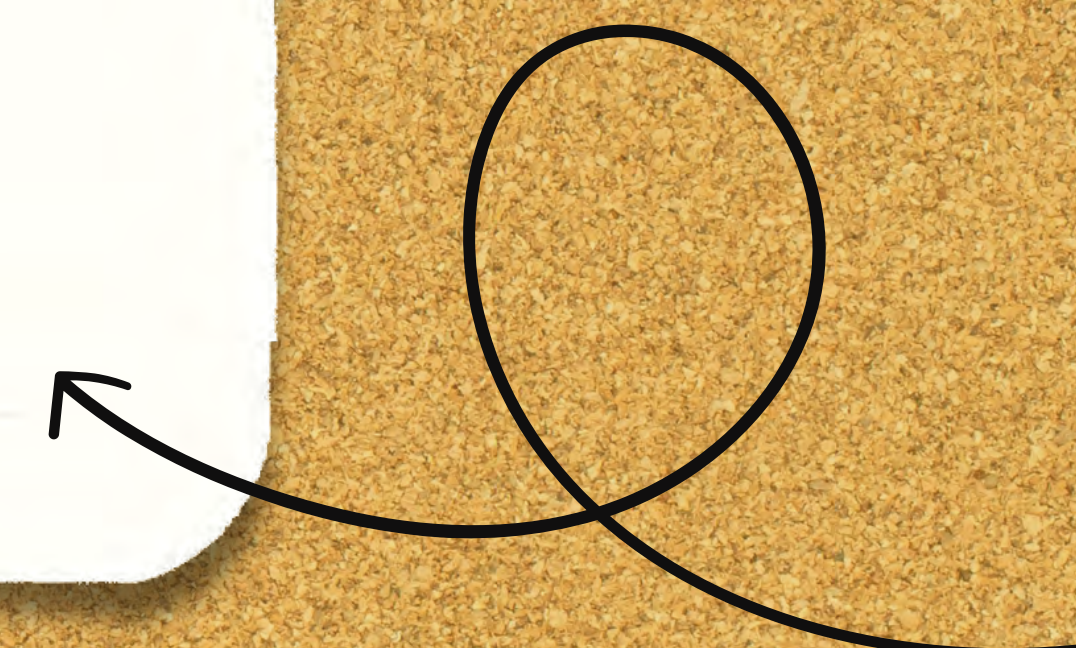

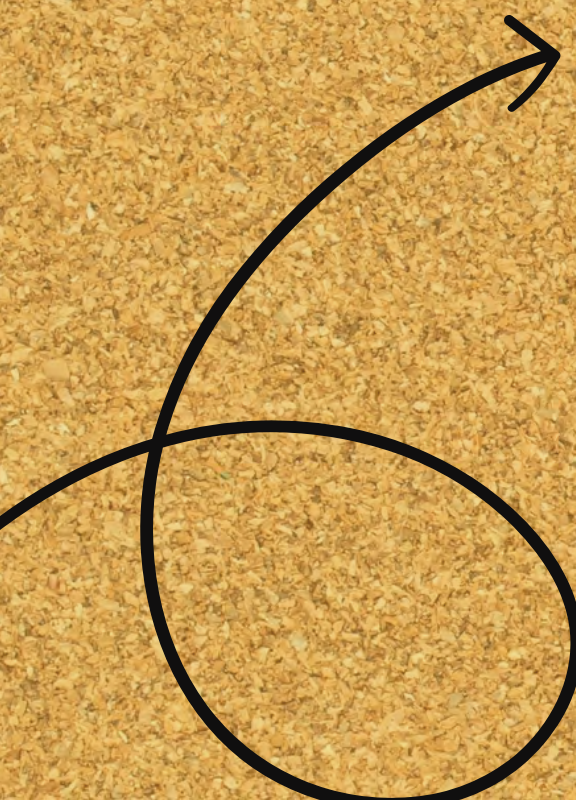

We have between 35-40% of students sign up for intersession, but only about 10% of staff.

What do teachers have to say?

Tori Nelson is our TtK-5th  
grade PE teacher and  
Teacher Union President

**Questions?**

A black, stylized, scribbled signature is written at the bottom of the page.
